

## 76<sup>th</sup> Plains Anthropological Conference

San Antonio, Texas

October 24-27, 2018

### Banquet Information

This year's banquet speaker will be Dr. Carolyn Boyd, Shumla Endowed Research Professor in the Department of Anthropology at Texas State University. Carolyn E. Boyd is an artist and an archaeologist specializing in iconographic analysis. Her primary interest is the documentation and interpretation of Pecos River Style rock art in southwest Texas and Coahuila, Mexico. Her research examines the role of hunter-gatherer artists as active participants in the social, economic, and ideological fabric of the community and the function of art as communication and a mechanism for social and environmental adaptation. In 1998, Boyd founded a nonprofit corporation, Shumla Archaeological Research and Education Center ([www.shumla.org](http://www.shumla.org)), to preserve through documentation and education the prehistoric art of the Lower Pecos. She continues to serve as a research advisor to Shumla and to work with the organization in their documentation efforts.
